

About MDW – India's Health First Company

At **My DawaiWala (MDW)**, we're reimagining how India experiences healthcare — by making it **faster, more affordable, and radically accessible**. Founded with a simple yet powerful belief that everyone deserves timely, trustworthy care without leaving the comfort of home, MDW is on a mission to become **India's Health First Company**.

We began with a pain point many families know too well — the struggle of finding a reliable chemist late at night, standing in queues, or receiving counterfeit medicines from unknown platforms. To solve this, we built **MDW Medicine**, our lightning-fast prescription delivery service that brings 100% genuine medicines to your doorstep in as little as **20 minutes**.

But healthcare isn't just about medicines — it's about **preventive care, lifestyle support, and long-term wellbeing**. That's why we launched **MDW Wellness** — a service where trained professionals visit your home for health check-ups, therapy, yoga, and more. With both **online** and **at-home** wellness offerings, MDW is making preventive care feel less like a chore and more like a natural part of your life.

Behind every delivery and every wellness visit is a team of pharmacists, logistics experts, doctors, engineers, and healthcare workers — all working toward one goal: **to make quality healthcare as fast, convenient, and trustworthy as ordering your groceries**.

Whether you're ordering medicines for your parents or booking a wellness expert for yourself, MDW is here to serve you with compassion, speed, and complete transparency.

This is not just health-tech. This is **healthcare, redefined** — for today's India.
